SESSION OVERVIEW

FALLING WALLS PITCHES

FALLING WALLS LAB

6 Curie Stage 1 Fl
6 NOV

Join the Falling Walls Lab for a world-class competition of emerging talents and early-career professionals from around the globe. Watch them present their groundbreaking ideas in just three minutes.

FALLING WALLS VENTURE

3 Franklin Stage 0 Fl
6 NOV

Visit Falling Walls Venture, our global platform for science start-ups nominated by leading academic institutions.

FALLING WALLS CIRCLE – DEBATES & SYMPOSIA

FALLING WALLS PLENARY TABLES

6 Curie Stage 1 Fl
8 NOV

Plenary Tables bring together global leaders and innovators from science, business, policy, and media. Engage in networking, open discussions, and panels, as they showcase breakthroughs and explore solutions to critical challenges.

FALLING WALLS ROUND TABLES

3 Frank. 0 Fl | 0 Ann Jacks. -1 Fl
7 NOV | 8 NOV | 9 NOV

Round Tables connect global science leaders and visionaries from research, business, policy, and media. Join public debates and symposia, where breakthroughs and solutions to pressing issues are presented.

FALLING WALLS BREAKTHROUGHS & SPECIAL PARTNER SESSIONS

FALLING WALLS BREAKTHROUGHS

6 Curie Stage 1 Fl
9 NOV

On the anniversary of the Berlin Wall's fall, leading scientists and visionaries will reveal the next barriers to break in science and society. Discover their breakthroughs and how they overcome challenges at this inspiring finale.

FALLING WALLS BREAKTHROUGH FORUM

9 Tsukamoto Café 1 Fl
9 NOV

The forum explores the social and societal implications of the breakthroughs. The format is aimed to bring the breakthrough researchers into conversation and explore critical and visionary aspects of the new science and technology presented.

FALLING WALLS ENGAGE

0 Ann Jackson Stage -1 Fl
6 NOV

Enjoy Falling Walls Engage with presentations from our network for innovative science engagement. Engage creates unique opportunities for collaboration and learning in the area of climate change adaptation.

FALLING WALLS FEMALE SCIENCE TALENTS

11 Meitner Salon 0 Fl
6 NOV

Women leaders in science, business, and society will come together at the International Fall Gathering 2025 for a dynamic series of events, workshops, and networking activities designed to promote and strengthen female leadership.

FALLING WALLS IMPACT DIALOGUES

2 Elion 0 Fl | 0 AnnJacks. -1 Fl
7 NOV | 8 NOV

Impact Dialogues offer dynamic, engaging scientific discussions across multiple venues. With panels, open forums, and workshops, they encourage movement and audience interaction, fostering meaningful connections and impactful discourse.

FALLING WALLS SYMPOSIUM

0 Ann Jackson Stage -1 Fl
8 NOV

The Wilhelm and Else Heraeus Foundation and Falling Walls welcome international researchers in the field of physical sciences as part of this unique format.

FALLING WALLS INSIGHTS CAFÉ

9 Tsukamoto Café 1 Fl
7 NOV | 8 NOV

The "Insights Café" turns a public space into a hub of innovation, featuring single speakers or small groups that engage the audience. It simplifies complex scientific concepts, complementing larger stages with interactive and compelling presentations.

FALLING WALLS EXECUTIVE TABLES

7 Darwin 1 Fl | 8 Newton 1 Fl
7 NOV | 8 NOV | 9 NOV

Executive Tables are invitation-based background discussions reviewing the current state of specific challenges to identify directives for future developments. All participants contribute to the event. Chatham House Rules encourage an open exchange.

GIPFEL FÜR FORSCHUNG & INNOVATION

6 Curie Stage 1 Fl
7 NOV

Leaders in policy, science, innovation and European industry come together for the "Summit for Research and Innovation". A series of panels will explore the collective action needed to ensure Europe remains competitive and resilient.

CLIMATE & SUSTAINABILITY SUMMIT

6 Curie Stage 1 Fl
7 NOV

BCG's Climate & Sustainability Summit brings the business lens to the challenges of sustainability, scientific urgency and climate action to foster a competitive advantage for European businesses.

FALLING WALLS GLOBAL CONNECTIONS

5 Einstein Pavilion 0 Fl
6 NOV | 7 NOV | 8 NOV

Global Connections is a forum for highlighting national achievements in science, research and innovation and enabling international collaboration — with a special focus on sustainability and future-orientated technologies.

COMMEMORATING PERSECUTION

9 NOV 1938

CELEBRATING FREEDOM

9 NOV 1989

SHARING KNOWLEDGE

9 NOV TODAY

ABOUT 9 NOVEMBER IN BERLIN

As a vessel for the world-changing spirit of 1989, both in and beyond Berlin, we are on a relentless pursuit to find out: Which are the next walls to fall?

Welcome to the Falling Walls Science Summit 2025!

The crumbling concrete blocks of the Berlin Wall marked the dawn of a new era of freedom by breaking barriers – both physical and imaginary – on the night of 9 November 1989.

The Falling Walls Foundation channels this iconic moment as a not-for-profit organisation based in Berlin, dedicated to bringing together those who aim to tear down the next walls in science and society. Since our first conference on the 20th anniversary of the fall of the Berlin Wall in 2009, Falling Walls has become an ever-growing network of the most ambitious and forward-thinking minds from around the globe. Our community is built on outstanding experiences of gathering, learning, and connecting to a higher purpose by tackling the greatest challenges facing the planet. Together, we stand for freedom of thought and scientific research, and for making groundbreaking ideas accessible to society.

On 9 November 1938, Nazis across Germany committed horrific anti-Semitic pogroms, marking the last turn toward the darkest chapter in world history. This particularly historic date reminds us of the devastating consequences of neglecting the principles of open dialogue, scientific evidence, and free thinking.

As we gather on 9 November to celebrate the peaceful revolution marked by the fall of the Berlin Wall and honor the power of world-changing ideas, let us not forget that it is up to each of us to uphold the basic principles of human rights and freedom of thought.

As a science-driven creative organisation with an international and interdisciplinary mindset, we set the highest standards for our work, particularly in upholding the relevance and quality of our activities to help science engage audiences in innovative and impactful ways.

The Falling Walls Science Summit is part of Berlin Science Week. Between 1 – 10 November, the program offers more than 300 events, including panel talks, workshops, exhibitions, and film screenings throughout Berlin and online.

FALLING WALLS FEMALE SCIENCE TALENTS

Women leaders in science, business and society come together at the International Fall Gathering 2025 – Women Shaping the Future.

The fourth edition of the International Fall Gathering takes place from 6–9 November 2025 in Berlin as part of the Falling Walls Science Summit. The gathering connects the 20 participants of our Intensive Track career programme, this year's Winners of the Women's Impact Award with role models, partners from the Female Science Talents community in a dynamic sequence of events, workshops and networking activities.

Programme highlights:

Celebrating the Winners of the Women's Impact Award

The "Women's Impact Award" recognizes female scientists who conduct visionary research with a strong focus on gender equality and societal impact. In the Women's Impact Award Ceremony and Networking Dinner on 7 November, the three Winners will be celebrated for their outstanding achievements.

Shedding a spotlight on the female Science Breakthrough of the Year

The "Science Breakthrough of the Year 2025", who has been selected among the Winners of the Women's Impact Award, will present her work to a global audience on the grand stage on 9 November.

Experiencing cutting-edge science at the Falling Walls Science Summit

The participants of the Fall Gathering will attend lectures and discussions from and with international experts, who will share their outstanding research or explore new solutions to current issues. They will have the unique opportunity to connect and exchange ideas with other leaders in science and society.

The International Fall Gathering is a joined initiative of Female Science Talents, the Elsevier Foundation, the Bayer Foundation, the Volkswagen Foundation and the DFG – German Research Foundation.
