# SESSION OVERVIEW

## FALLING WALLS PITCHES

### FALLING WALLS LAB

**6 Curie Stg** *1 Fl*

*Join the Falling Walls Lab for a world-class competition of emerging talents and early-career professionals from around the globe. Watch them present their groundbreaking ideas in just three minutes.*

### FALLING WALLS VENTURE

**3 Franklin Stg** *0 Fl*

*Visit Falling Walls Venture, our global platform for science start-ups nominated by leading academic institutions.*

### FALLING WALLS ENGAGE

**0 Ann Jackson Stg** *-1 Fl*

*Join Falling Walls Engage, our global platform for science engagement. Engage connects and empowers those who bring science closer to society. Find inspiration in projects that take climate action from idea to impact.*

### FALLING WALLS FEMALE SCIENCE TALENTS

**11 Meitner Salon** *0 Fl*

*Women leaders in science, business, and society will come together at the International Fall Gathering 2026 for a dynamic series of events, workshops, and networking activities designed to promote and strengthen female leadership.*

*Learn more about the summit programme here*

## FALLING WALLS CIRCLE – DEBATES & SYMPOSIA

### FALLING WALLS PLENARY TABLES

**6 Curie Stg** *1 Fl*

*Global leaders and innovators from science, business and policy come together in panel discussions to debate the next steps on the global scientific agenda in context of current developments and pressing challenges.*

### FALLING WALLS ROUND TABLES

**3 Frank.** *0 Fl* | **0 Ann Jacks.** *-1 Fl*

*Speakers with diverse perspectives participate in panel discussions focused on a variety of topics from current scientific developments in certain fields to wider challenges in science and society.*

### FALLING WALLS IMPACT DIALOGUES

**2 Elion** *0 Fl* | **11 Meitner** *0 Fl*

*Impact Dialogues create dynamic spaces for exchange and discussion. From panels and open forums to workshops and interactive formats, each session brings together different perspectives, ideas and voices.*

### FALLING WALLS SYMPOSIA

**0 Ann Jackson Stg** *-1 Fl*

*Symposia are multi-session formats with international experts showcasing and debating current and future breakthroughs in a certain field. Here we take a closer look at Breakthroughs in Physical Sciences and the Future of Medicine.*

### FALLING WALLS INSIGHTS CAFÉ

**9 Tsukamoto Café** *1 Fl*

*The Insights Café turns a public space into a hub of innovation, featuring single speakers or small groups that engage the audience. It simplifies complex scientific concepts, complementing larger stages with interactive and compelling presentations.*

### FALLING WALLS EXECUTIVE TABLES

**7 Darwin** *1 Fl* | **8 Newton** *1 Fl*

*Executive Tables are invitation-based background discussions reviewing the current state of specific challenges to identify directives for future developments. All participants contribute to the event. Chatham House Rules encourage an open exchange.*

## FALLING WALLS BREAKTHROUGHS & SPECIAL PARTNER SESSIONS

### FALLING WALLS BREAKTHROUGHS

**6 Curie Stg** *1 Fl*

*On the anniversary of the Berlin Wall's fall, leading scientists and visionaries will reveal the next barriers to break in science and society. Discover their breakthroughs and how they overcome challenges at this inspiring finale.*

### FALLING WALLS BREAKTHROUGH FORUM

**9 Tsukamoto Café** *1 Fl*

*The forum explores the societal and ethical considerations of the breakthroughs. It aims to bring the researchers into conversation and explore critical and visionary aspects of the new science and technology presented.*

### FALLING WALLS SPOTLIGHT AFRICA

**5 Einstein Pavilion** *0 Fl*

*The programme brings together science, policy, industry and finance to shape Africa and Europe's shared scientific future, exploring how partnerships grounded in African priorities can turn discovery into lasting societal benefits.*

### FALLING WALLS CANADA PAVILION

**5 Einstein Pavilion** *0 Fl*

*The series of events bring Canadian perspectives into conversation with the world. From science and innovation to diplomacy and discovery, it creates space for bold ideas, new connections and meaningful collaboration across borders.*

# FREE SCIENCE FOR HUMANITY

**"Free science is not a privilege reserved for scientists, but a promise to humanity. Let us uphold that promise."**

FALLING WALLS 2026 PARTNER COUNTRY

# CANADA

**"As the partner country for the 2026 Falling Walls Science Summit, Canada is proud to showcase our world-class talent and strengthen partnerships with Germany and our European allies that will advance discovery, accelerate innovation and build a more prosperous future for people on both sides of the Atlantic."**

**Mélanie Joly,** Canadian Research Minister

**Berlin welcomes 190+ Canadian science leaders. In the Canada Pavilion, 15+ sessions connect them with European colleagues. On opening night, Team Canada invites you to a Canada-themed reception. Meet your Canadian peers to start projects, build businesses, form alliances and exchange breakthrough ideas!**

## ABOUT 9 NOVEMBER IN BERLIN

**As a vessel for the world-changing spirit of 1989, both in and beyond Berlin, we are on a relentless pursuit to find out: Which are the next walls to fall?**

Welcome to the Falling Walls Science Summit 2026!
The crumbling concrete blocks of the Berlin Wall marked the dawn of a new era of freedom by breaking barriers – both physical and imaginary – on the night of 9 November 1989.

The Falling Walls Foundation channels this iconic moment as a not-for-profit organisation based in Berlin, dedicated to bringing together those who aim to tear down the next walls in science and society. Since our first conference on the 20th anniversary of the fall of the Berlin Wall in 2009, Falling Walls has become an ever-growing network of the most ambitious and forward-thinking minds from around the globe. Our community is built on outstanding experiences of gathering, learning, and connecting to a higher purpose by tackling the greatest challenges facing the planet. Together, we stand for freedom of thought and scientific research, and for making groundbreaking ideas accessible to society.

On 9 November 1938, Nazis across Germany committed horrific anti-Semitic pogroms, marking the last turn toward the darkest chapter in world history. This particularly historic date reminds us of the devastating consequences of neglecting the principles of open dialogue, scientific evidence, and free thinking.

As we gather on 9 November to celebrate the peaceful revolution marked by the fall of the Berlin Wall and honour the power of world-changing ideas, let us not forget that it is up to each of us to uphold the basic principles of human rights and freedom of thought.

As a science-driven creative organisation with an international and interdisciplinary mindset, we set the highest standards for our work, particularly in upholding the relevance and quality of our activities to help science engage audiences in innovative and impactful ways.

The Falling Walls Science Summit is part of Berlin Science Week. From 1 – 10 November, the programme offers more than 300 events, including panel talks, workshops, exhibitions, and film screenings throughout Berlin and online.

## FALLING WALLS
## FEMALE SCIENCE TALENTS

**Women leaders in science, business and society come together at the International Fall Gathering 2026.**

The fifth edition of the International Fall Gathering takes place from 6 – 9 November 2026 in Berlin as part of the Falling Walls Science Summit. The gathering connects the 20 participants of our Intensive Track career programme, this year's winners of the Women's Impact Award and the role models and partners from the Female Science Talents network in a dynamic sequence of events, workshops and networking activities.

### Programme highlights:

**Celebrating the winners of the Women's Impact Award**
The "Women's Impact Award" recognizes female scientists who conduct visionary research with a strong focus on gender equality and societal impact. In the Falling Walls Award Ceremony on 7 November, the three winners of the award will be celebrated for their outstanding achievements.

**Shedding a spotlight on the female Science Breakthrough of the Year**
The "Science Breakthrough of the Year 2026", who has been selected among the winners of the Women's Impact Award, will present her work to a global audience on the grand stage on 9 November.

**Experiencing cutting-edge science at the Falling Walls Science Summit**
The participants of the Fall Gathering will attend lectures and discussions from and with international experts, who will share their outstanding research or explore new solutions to current issues. The participants will have the unique opportunity to connect and exchange ideas with other leaders in science and society.

The International Fall Gathering is a joined initiative of Female Science Talents, the Elsevier Foundation, the Bayer Foundation, the Volkswagen Foundation, the DFG – German Research Foundation – and EnBW Energie Baden-Württemberg.
